¿QUIENES SOMOS?

First of all, we would like to introduce ourselves:

KimeraMusical.com is a project born with the idea of providing to all those with musical talent a professional musical production job at a price that everyone can afford.

You can decide how much you will pay for our work!

Pay What You Want!!

This is probably the best offer you have ever seen!

We are the first music production studio in the world where you pay for our work what you think it is worth.

Our aim is make music production as accessible as possible to you, therefore, we offer you the possibility to make us an offer, we trust you, choose our fee.

We are so confident that you will love our work, that we will only charge you what you think we deserve, and moreover, if you are not satisfied, we will you a full refund. The future of this project is based on the trust we place in you and we know you will treat us fairly.

What can made your songs have a final push and allow you to make a living with music?

It's not a secret, moreover, it's the same method as 90% of the bands you that you are currently following or listening, and it's no other than looking for someone totally outside the band, with experience and professionalism, who understands what you wanted to express with my music and maximize it.

The musicians have inclination to blind ourselves with our art, thinking our work is perfect and untouchable, making follies that many times can ruin our songs.

That's why someone outside the band is needed, someone who understands your music, style, the musical concept you are trying to find, the purpose of your work, your sound, etc..., enhancing your strengths, correct your defects, and achieves the perfect sound and climate for your music.

This figure, is us.

Starting from your ideas and the approach of your song and your musical style, we propose you the necessary changes to maximize what you want to express and make it reach a wider audience.

We present you some of our works so that you can notice how our producers work and get an idea of what we can do for you.

SHARING YOUR TRACKS IN SOUNDCLOUD

Once you have your music recorded, arguably you would like to share it, and that the public can hear you, and that we can hear your tracks too.

There are many places where you can upload your music to make it public, and one of the most used sites is the one we propose in this little handbook:

SoundCloud is a online audio distribution platform and music sharing website that enables its users to upload, promote, and share audio. Started in 2007 by Alexander Ljung and Eric Wahlforss, SoundCloud has grown to be one of the largest music streaming services in the market reaching over 175 million monthly users worldwide.

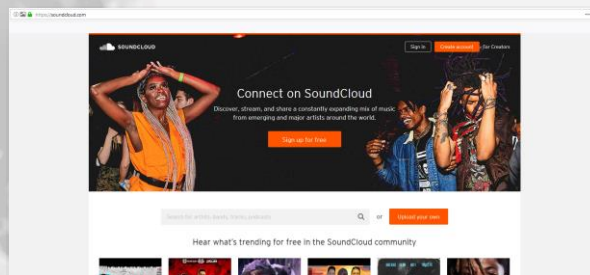

SoundCloud has influenced the music industry through the success of many artists who have emerged from the music-sharing service. Artists on the platform are able to distribute their work for free that can be accessed by all users.

Among the most famous artists that have been known thanks to soundcloud, we can find: Post Malone, Don Monique, Kehlani, Bryson Tiller or Kygo

UPLOADING A SONG TO SOUNDCLOUD

If you're a budding musician and want to share your own music with others, you can upload your own content to the site. Uploading tracks to SoundCloud is a pretty quick and painless process.

Please note that if you don't have a Pro account, you have three hours worth of content that you can upload.

If you already have an audio file, ensure that the file is no larger than 5GB in size and is in one of the following formats: MP2, MP3, WAV, WMA, AIFF, AAC, ALAC, AMR, FLAC, or OGG.

You can upload it to SoundCloud as follows:

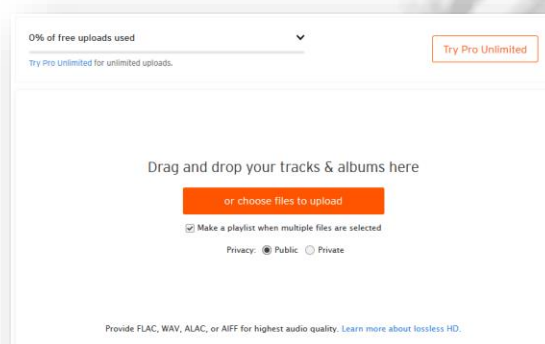

- Click on the "Upload" link near the top right corner of the screen, next to your avatar in the top navigation bar.

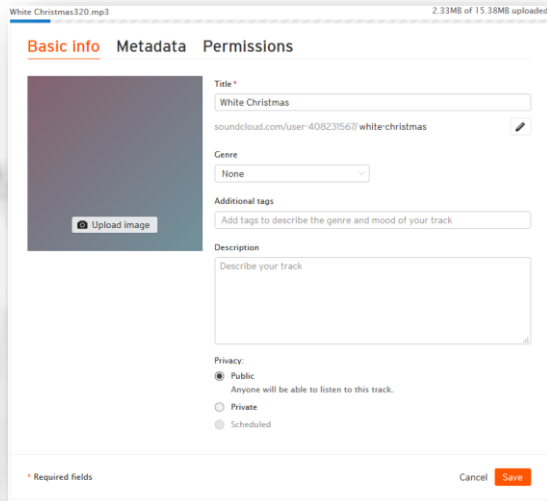

From there, you'll see a page that looks like this.

You can either drag and drop tracks and albums onto the page, or you can use their file uploader.

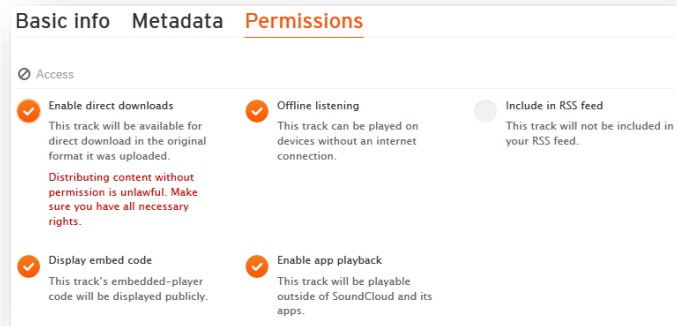

Once you choose the tracks you want to upload, they will start to upload automatically.

Once selected you then have to give it a Title, Genre, Additional tags (for example the type of music, when you would listen to it) and Description. Then check the box "Public" to share your tracks publicly.

So that from KimeramMusical, we can download your music to rate it, please, in the "Permissions" tab, check the option "Enable direct downloads".

Once the upload is complete, click the save button at the bottom of the screen.

If you want to share the link of the song with us, with your friends, your family, or your fans, simply copy the link that you have at the bottom right of this screen and share it via email, whatsapp, Messenger, Skype, or by putting it on your website. You can also automatically share it on Twitter, Facebook or Tumblr with the buttons set for it.

After that, you're all done! Make sure you give yourself a cool artist name and tweet out to all your friends so you can share your tracks with them!
